

IDeviceLayer

```
classDiagram
    class IDeviceLayer
    class dev_DeviceLayerFake["dev::DeviceLayerFake"]
    dev_DeviceLayerFake --|> IDeviceLayer
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'IDeviceLayer'. Below it is a box labeled 'dev::DeviceLayerFake'. A blue arrow points from the 'dev::DeviceLayerFake' box up to the 'IDeviceLayer' box, indicating that 'dev::DeviceLayerFake' inherits from 'IDeviceLayer'.

dev::DeviceLayerFake
